PH7-70 Single Sided Tape

PH7-70 is a white 70gsm single sided paper with an acid free pH neutral acrylic adhesive. It has a high initial tack, which is great when working with heavier, textured or uneven paper and mount board surfaces. Adhesive can be reversed from some surfaces using Zest-It citrus based removal fluid. Due to the high initial tack the tape is permanent and can be difficult to remove. When hinging art, always hinge from the back of the art, only 25mm wide x 5mm deep of the tape should be on the artwork. Always place the tape at least 40mm or more away from the image. Do not use on high value or irreplaceable art.

ATG PH7-70 Double Sided Tape

PH7-70 is a double sided ATG tape which has a permanent acid free acrylic adhesive system which will not react with sensitive papers or mount board. It is ideal for bonding double mounts, attaching dust covers and many other acid free applications.

Always make sure the tape is nowhere near the artwork as the adhesive is permanent. Ideal for use when everything in the mount has to be acid free.

Hang Tabs

Hang tabs are an ideal product hanging solution that help maximize merchandising opportunities by displaying products at eye level in store.

Using hang tabs allows you to display and hang products at Point of Sale and Point of Purchase locations. Increasing the visibility of products can therefore increase impulse buying. Hang tabs also enable you to fit more products in the same space compared to shelf display.

Our Hang Tabs & Wobblers are produced using an APET plastic.

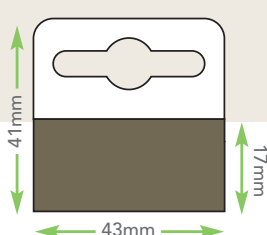

RIGID HANG TABS

We offer an extensive range of Rigid Hang Tabs, from 200 Micron up to 500 Micron APET.

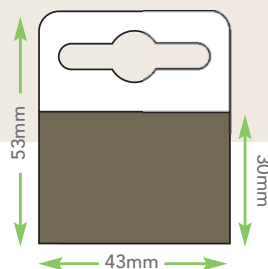

Our vast range of Rigid Hang Tabs consist of Hooks, Euro and Delta Slots and bespoke styles to provide you with a perfect product for your requirement, whether it may be to Display, Hang, Reinforce or Repair products in-store.

FLEXITAIL HANG TABS

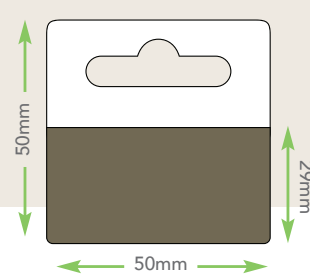

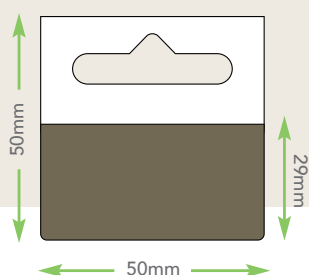

Our strong, self-adhesive Flexitail Hang Tabs put your product face-forward onto a peg hook or display strip, increasing visibility and retail sales.

Due to the flexibility of our Flexitail Hang Tabs, the tab can fold down during shipping and fold back up when they are required to be hung in store.

As the APET material we use is clear, using our Hang Tabs will not affect or cover any of your product or brand when displayed in store. A combination of the high quality APET and Adhesive we use on our Hang Tab range will keep your product hanging in the most difficult of retail environments.

PADS DOUBLE SIDED

Perm / Peel Pads (Double Sided Foam Pads)

This unique product features a removable adhesive on the closed side and a permanent one on the open side. The removable adhesive is a modified acrylic which provides a good level of tack and shear whilst providing initial repositionability and long term clean peel removability even after extended periods in situ. The permanent adhesive is a modified acrylic, designed to provide a good balance of adhesion and cohesion. Due to its high deposition it can be utilised on most structured or textured surfaces.
