

GLOBAL SELF-ADHESIVE

PRODUCTS LTD.

Fire Proof Membrane

Our Fire Proof Membrane is a special waterproof membrane with high weather resistance and high fire rating.

Four-layer composite structure, with high tack initial adhesion, high peel strength and great weather resistance. It has low odour and contains no toxic or harmful substances, in line with high performance and environmental protection trends.

It also has good flame-retardant performance and meets the US UL94-V0 fire protection standard.

Used as a fire barrier under solar systems on pitched roofs and other general roofing and building fire retardant type applications.

- + **FR performance**
(meets US UL94-V0 fire protection standard)
- + **Anti slip external surface**
- + **High initial tack** allows it to bond to most building surfaces
- + **High weather resistance** for all external and demanding use.

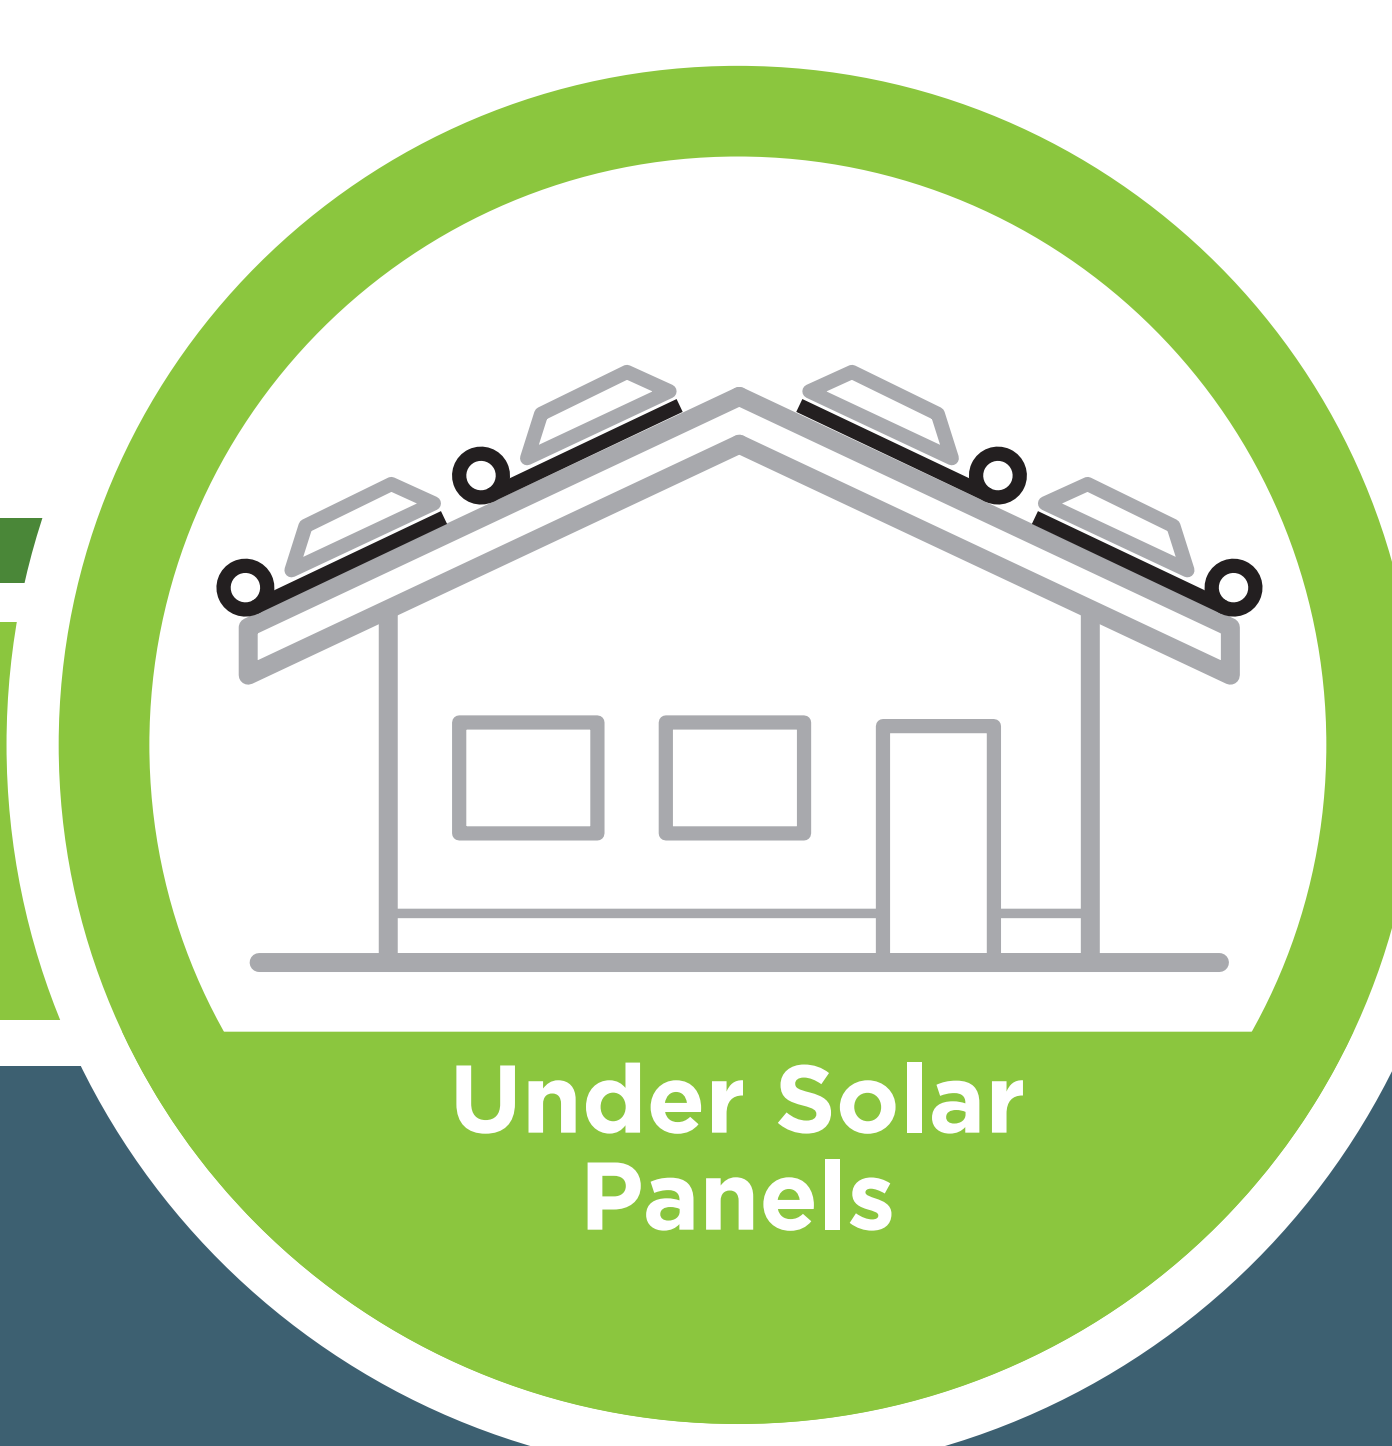

Size: 1m x 10m (39.37 x 10.93 inches)

Flat Roofed Building

Pitched Roofed Building
